

DENVER CONVENTION PASSES INTO HISTORY

Nomination of Vice-Presidential Candidate Terminated Scene.

SKETCH OF LIFE OF KERN

The Vice-Presidential Candidate Has Worked Hard for Success of the Party, and Will Prove Strong Man in Present Campaign.

Denver, Colo., July 13.—The democratic national convention concluded its labor late Friday afternoon by the nomination of John Worth Kern, of Indiana, for vice president, completing the ticket on which William Jennings Bryan was made the nominee for president.

The nomination of Mr. Kern was made by acclamation amid the resounding cheers of delegates and spectators. No ballot was necessary, as the tide of sentiment had set irresistibly toward the Indiana candidate, state after state registering their delegations in his favor, and all other candidates withdrawing before the universal demand for his nomination.

The convention, after adjourning at daylight with the nomination of Mr. Bryan, resumed its session at 1 p. m.

with a powerful undercurrent already in motion toward the nomination of Kern for second place.

The nomination was made at 4:23, and the convention adjourned without date.

Sketch of John W. Kern.

John W. Kern was born in Alto, Howard county, Indiana, December 10, 1849. His forefathers were natives of Virginia and neighbors of Thomas Jefferson. At an early age Kern attended a normal school at Kokomo, Ind. He taught school for a while and then went to Ann Arbor to study law. He got his degree from the University of Michigan before he was old enough to vote and at twenty-one was nominated for representative from Howard county making a strong canvass in a republican balliwick. Subsequently he was elected city attorney of Kokomo for six terms, though the council was always republican. In 1884 he was elected reporter of the supreme and appellate courts of Indiana.

After moving to Indianapolis he was sent to the state senate in 1892 and became an acknowledged leader in that body. He served in the state senate until 1896. From 1897 to 1901 he was city attorney of Indianapolis. In 1900 he was nominated for governor on the democratic ticket but could not stem the tide against Bryan, whose firm friend he was. Kern was again nominated for governor in 1904 but conditions were still against democratic success in Indiana. He ardently advocated the renomination of Bryan for the presidency in 1904 but was among the first to declare for Alton B. Parker when Mr. Bryan eliminated himself from the race. Mr. Kern might have had the democratic vice presidential nomination in 1904, but

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or know your own misfortune, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

for his determination not to lay any obstacles in the way of Thomas Taggart's candidacy for the national chairmanship. It was on Kern's motion in the national committee that Taggart was chosen chairman.

The gubernatorial campaign of 1904, into which Mr. Kern was practically drafted by party demands, had a very bad effect on his health and he was forced to relinquish his business for some time and go to another climate. He has now fully regained his health and strength and is as potent as ever in democratic councils of his state. In 1905 he received the complimentary vote of the democratic minority in the legislature for the United States senatorship.

Mr. Kern is a red-hot campaigner, an orator of force and eloquence. He was the friend of Hendricks and Voorhees and served with them in many memorable political battles.

The Kern family is prominent socially in Indianapolis. Mrs. Kern being a brilliant woman of high intelligence and a lively wit.

Chief in importance will be the visit to Fairview of members of the new national committee next Tuesday when campaign plans will be discussed and the matter of a new chairman taken up informally.

MORTALITY AMONG INFANTS.

Chicago City Appropriates Money for Special Purpose.

Chicago, July 13.—To save babies' lives, the city council of Chicago made a special appropriation of \$10,000 on Friday night.

Intestinal diseases among infants, caused chiefly by the hot weather, have been of such frequent occurrence in Chicago that, according to relative figures, the total deaths of babies due to these complaints this year, will reach the startling total of 3,414.

Alarmed at the prospect of this wholesale slaughter of the innocents, the council authorized the transfer of \$10,000 to pay one hundred physicians who will be employed by the city to disseminate information concerning the causes and prevention of summer sicknesses among babies.
